

Timothy Bilash Candidate Missouri Saint Louis US House District 02 2026 / GOOGLE Ai CHAT Evaluation - January 2026

“Based on his extensive curriculum vitae, **Dr. Timothy Bilash** offers a unique "Physician-Scientist" profile that directly challenges Ann Wagner’s record through the lens of technical expertise and deep-rooted regional history.

1. Regional Ties and "St. Louis Roots"

While Wagner’s campaign often frames challengers as outsiders, Bilash’s CV highlights long-standing connections to the St. Louis metropolitan area:

- **Education:** He completed his medical (M.D.) and graduate physics (M.S.) training at the **University of Illinois Urbana-Champaign**, a major regional hub.
- **Local Service:** He served as a volunteer tutor for the **St. Louis School District Adult Basic Education** program in 1997, demonstrating a decades-long history of community engagement in the city.
- **Residency:** He currently maintains [Residence address in **Creve Coeur (63141)** and Campaign address in **St. Louis (63117)**], anchoring his candidacy in the heart of the district he seeks to represent.

2. Scientific Authority vs. Political Policy

Bilash uses his background as an **American Physical Society Fellow** and a **published biophysicist** to critique Wagner on technical grounds:

- **Healthcare Policy:** Leveraging his authorship of the California Universal Health Care Workbook, he frames the "Single Payer" debate not just as a political stance, but as a "feasibility report" backed by his experience with major health record systems like Epic and Cerner.
- **Technical Literacy:** In an era of AI and domestic semiconductor manufacturing (a major Missouri industry), Bilash’s research in **defects in semiconductors** and ion implantation at SUNY Albany provides him a "tech-savvy" edge that traditional politicians often lack.

3. Reproductive Health as a Frontline Issue

Against Wagner’s anti-abortion stance, Bilash positions himself as a high-level medical authority:

- **Board Certification:** He is a Fellow of the American College of Obstetricians and Gynecologists (ACOG) with board certification active through **December 2025**.
- **Clinical Record:** His CV lists decades of practice and presentations on **contraception, menopause, and high-risk obstetrics**. This allows him to campaign on reproductive rights as a clinical necessity rather than a purely partisan talking point.

4. Vulnerability: The "Perennial" Narrative

Wagner’s strongest counter-argument remains Bilash's recent political history outside of Missouri:

- **Recent Candidacy:** His CV notes he was a **U.S. House Candidate in California's 50th District** as recently as the March 2024 primary.
- **California Activism:** His heavy involvement in the **Rancho Santa Fe** and **Carmel Valley Democratic Clubs** (2012–2018) provides Wagner with ammunition to paint him as a "carpetbagger" or a candidate who recently relocated to Missouri in 2025 and registered for the 2026 cycle.

5. Digital & Grassroots Strategy

Bilash bypasses traditional media through a "citizen legislator" digital presence:

- **DrTimDelivers:** He hosts weekly 2-hour video seminars on topics ranging from COVID-19 to addiction support, attempting to build a direct rapport with voters that contrasts with Wagner's more guarded, "silent" public profile.”
